McAdoo Announces Indications Are New York Filled Its Quota.

RUSH ON CLOSING DAY

Manhattan Committee Reports \$16,050-"Little Bill" Edwards Subscribes \$1.08.

The nationwide campaign of the Boy Scouts to enlist 1.000,000 grown members has been a great success. William G. McAdoo, chairman of the Citizens National Committee, said last night.

The drive here, after having been extended four days on account of the slowness of New York to respond, closed last night with a mass meeting in the City College stadium.

"Full returns have not been received from the five boroughs," Mr. McAdoo said, "but we feel confident that the result will be the raising of New York's quota of 325,000 memberships. "Besides the memberships and money

which were the immediate objectives, the Boy Scout campaign has been of tremendous benefit in familiarizing the country with the purpose of this fine organization for making the best kind of citizens out of its boyhood." The last day of the drive was carried through with a rush by the local can-vassers, \$16.050 being reported by the
